How to Schedule (or View) ASC Workshops

**Writing and Communication Workshops**

We offer 45-60 minute workshops for your classroom or student organization. Writing and Communication workshops can be customized to your audience and purpose. If your request is to combine two of our existing workshop topics (like the writing process and more information about relevant ASC services or public speaking and effective visual tools for presenting), you may do so via our request form. However, if you are requesting topics outside of the ones listed, this process should be started 3-4 weeks in advance because you may be asked to virtually meet with the workshop coordinator to further discuss these custom needs.

For a standard workshop, please submit your request at least two weeks before your requested date to have one of our trained consultants facilitate a workshop.
